Simon Burtscher, Dr.: sociologist at "okay. zusammen leben – Information and Advice Centre for the Issues of Integration and Migration Vorarlberg (A).

"mehr Sprache" A systemic approach towards language promotion in early childhood and multilingualism.

Early language support under the conditions of multilingualism is a challenge for both families as well as institutions of early learning. The program "mehr Sprache" addresses these challenges based on a systemic analysis of the migration issues and its effects in the local society of Vorarlberg, the situation of the migrant families and the changes caused by the migration within the education system. The workshop introduces into the program, its approaches and the results.
